Y Tape light and connector fit in channel.

Y [x/z] x = # of rows of tape that fit in channel / z = # of lead wires that fit in end caps.

S Tape light fits but requires soldered lead wires. Contact Customer Service to order.

 Tape light does not fit in channel.

PLEASE NOTE: If the tape light and channel combination you need is not compatible out of the box, call us to create a custom fixture with soldered leads to meet your specifications.
