

### Ankr® 1 In-Wall Channel

shown with closed end cap

open end cap

springform mounting clip

Ankr channel models are designed with a lip on either side of the channel that ensures a clean installation for in-wall applications in drywall. They are compatible a strong springform clip that holds the channel securely in place for both horizontal and vertical configurations. The Ankr 1 model is wide enough to accommodate three to four rows of dry location Alloy LED tape light to create a super high-output lighting fixture.

- Thermally-balanced design for maximum cooling
- Channel covers protect LED tape light
- Diffuser covers provide smooth light diffusion with no hotspots
- Full range of accessories for a great-looking installation
- Complete kits available to create a finished fixture
