HYDROLUME® SLIM Strip Light

INFINILINE® 120V Linear Light

Factory Assembled Tape Light

NEON BLAZE™ LED Lighting

Driver Junction Box Combos

We engineer and assemble LED Lighting products in the USA at our manufacturing Facility in Reno, Nevada. By taking advantage of our extensive component inventory, we can produce factory-assembled orders with state-of-the-art equipment and a skilled workforce. Matched with strict quality control measures, we build with experience and deliver quickly from our on-site distribution team.

MANUFACTURING & OPERATIONS FACILITY LOCATED IN RENO, NV

CERTIFICATIONS & COMPLIANCE

Title 24, Part 6
2019 building energy efficiency standards for residential and non-residential buildings.

JA8
Provides qualification requirements for high efficacy light sources certified by the Energy Commission. Qualification requirements include: Luminous Efficacy, Color Characteristics, Life Testing, and Power Factor, among others.

JA10
Quantifies flicker from lighting systems by measuring the fluctuation of light from lighting systems. Tested with a driver, light source, and dimmer at various frequencies dimmed down to certain levels.

Complete Product Line at www.DiodeLED.com

This catalog features the latest and most popular products available from Diode LED, but there is so much more. Visit us online and get access to everything we have available for every lighting application.

TABLE OF CONTENTS

QUICK START GUIDE TO **DL diodeled**®

1 PICK YOUR LIGHT

24V BLAZE™ 100
for ACCENT LIGHTING
≤ 55 ft. tape light run per 100W driver

24V BLAZE™ 200
for TASK LIGHTING
≤ 40 ft. tape light run per 100W driver

24V BLAZE™ 300
for COVE LIGHTING
≤ 22 ft. tape light run per 100W driver

See pages 18-19 for more details

Credit: Integrity Design Services / Designer: Mark Hernbroth

2 PICK YOUR CONNECTOR

TAPE LIGHT TERMINAL BLOCK CONNECTOR

TAPE TO WIRE
Screw onto tape light; connect to 18 AWG
Options: Connector only; 60" lead wire with connector
See page 40 for complete options

TAPE TO TAPE
Screw onto tape light
Options: Connector only; 6" jumper; 60" jumper
See page 40 for complete options

3 PICK YOUR DRIVER

DI-MLV (Magnetic)
Default

See pages 62-63 for more details

### OMNIDRIVE® X (Electronic/0-10V)

See pages 60-61 for more details

SWITCHEX® DIMMER+DRIVER IN ONE
2 in 1 for faster install

The driver is inside

Fits in standard electrical boxes.

See pages 66-67 for more details

4 CHANNEL
Optional

CANAL

See page 45 for more details

SLIM

*See page 45 for more details*

16mm
See page 47 for more details

X-RANGE™

The precision engineered **BLAZE X** and **Valent X** are the newly enhanced LED tape light, leading the industry in lighting performance and quality.

- 12-Year warranty
- 95+ CRI/ 90+ R9
- Longer lifetime of consistent color fidelity
- Lumen range 100–800
- Spec-Ready

VALENT® X

TIGHT-PITCH
LED TAPE LIGHT

New and improved design with optimal performance and now field-cuttable! VALENT X LED Lighting is a linear lighting solution designed and engineered to provide high quality natural LED light with 95+ CRI and high performing R-values that provides precision color rendering.

FEATURES & BENEFITS

- Dense LED placement for uninterrupted linear light
- 100, 200, 300, 500, and 800 lumen outputs
- 95+ CRI: Superior color rendering
- New and improved, field cuttable design
- 90+ R9 values color rendering

VALENT® X
WET LOCATION
TIGHT-PITCH
LED TAPE LIGHT

If you need tight-pitch, high lumen lighting for wet locations, VALENT X is the solution. Designed and engineered to provide high quality natural and diffused flexible linear lighting for any project. VALENT X Wet Location has 95+ CRI and high performing R-values that provide precision color rendering, and is suitable for applications that are prone to splashing, spraying, or rain. Field-cuttable and available in the Diode LED Tailored Lighting Program.

FEATURES & BENEFITS

- Dense LED placement for uninterrupted linear light
- 500 lumen output
- 95+ CRI: Superior color rendering
- New and improved, field cuttable design
- High R9–R13 values
- Ultra high lumen output

BLAZE™ X
LED TAPE LIGHT

The precision engineered BLAZE X is the enhanced LED tape light, leading the industry in lighting performance and quality. BLAZE X has 95+ CRI and higher R-values that provides precision color rendering, superior long-lasting performance, and all with the Diode LED 12-year warranty. BLAZE X comes in a variety of higher efficiency lumen outputs for any application.

FEATURES & BENEFITS

• 95+ CRI
• 12V and 24V platforms
• Heavy-duty copper PCB for long lasting performance
• 90+ values for R9 color render

AWARD WINNER

BLAZE™ X
WET LOCATION
LED TAPE LIGHT

At the center of this wet location linear lighting is the precision engineered BLAZE X LED light engine. BLAZE X wet location has 95+ CRI and high R-values that provides precision color rendering, and is suitable for applications that are prone to splashing, spraying, or rain. Field-cuttable and available in the Diode LED Tailored Lighting Program.

FEATURES & BENEFITS
- 95+ CRI
- 12V and 24V platforms
- Heavy-duty copper PCB for long lasting performance
- 90+ values for R9 color render

B L A Z E ™
LED TAPE LIGHT

BLAZE™ is the value engineered LED tape light that leverages the advances in efficient, cleaner technology, newer circuit design, streamlined manufacturing, and economies of scale. Featuring 90+ CRI, this enhanced tape light family is backed by a 7-year warranty and the well known service and support of Diode LED at an extremely attractive price point. This low voltage LED lighting for indoor task and display lighting is built on the same dependable LED tape and strip light design you are used to from Diode LED.

FEATURES & BENEFITS

- Cost-effective, high quality tape light
- Ideal for cabinetry, toe kicks, coves, and shelving
- Compatible with all Diode LED tape light accessories including CHROMAPATH® Channels, SWITCHEX®, OMNIDRIVE®, and many more

ALPHATECH® X
LINEAR LED LIGHTING

The AlphaTECH series is professional grade, fully diffused linear LED lighting for outdoors and indoors. Made in America*, AlphaTECH delivers reliably beautiful light in harsh environments including direct sunlight, wet locations, and even submerged in fountains, swimming pools, and saunas. Top and side-bending versions feature seamless end-to-end linkability and multiple mounting options.

AlphaTECH delivers diffused, flawless light with none of the color shifting and tint problems often associated with wet-location linear light. There is no need to sacrifice performance for durability.

*With foreign components

FEATURES & BENEFITS

- UL 676 - Pool and spa certified
- NSF component approved
- UV and Chemical resistant, sauna rated
- Lightweight, durable, and flexible
- Fully diffused with end-to-end, seamless light
- Impact resistant

STREAMLITE™
DIFFUSED COB LINEAR LIGHT

Introducing the lowest profile COB linear lighting, featuring uniform illumination without the need for additional diffused covers or accessories. STREAMLITE delivers premium light quality from a solid stream of light. Perfect for areas with low clearance or reflective surfaces to eliminate spot-glare.

- Accent and task lighting
- Facade lighting
- Curved coves
- Vaulted arches and ceilings
- General architectural lighting

FEATURES & BENEFITS

- Uniform diffusion without the need for accessories
- New COB Technology
- 180° beam angle
- Indoor and outdoor models
- Lowest profile for a diffused linear light

BLAZE™ SELECT
TUNABLE WHITE LIGHTING SYSTEM

Dynamic and tunable white light at the push of a button delivers an impressive range of warm light with the BLAZE SELECT Dynamic White Light System. Offered in a range of 2400K to 6000K, you'll get rich color-rendering and 95+ CRI.

Control: Choose from three control types to find the one that works best with your application
- Mobile
- Standalone Remote
- Wall-mounted

FEATURES & BENEFITS
- Tunable white light range
- Wide kelvin range from 2400K-6000K
- High performance lumen output - up to 580+ lm/ft.
- Controllable from a variety of technology choices

LED LIGHT GUIDE PANELS

Display & General Illumination

Built to order in Reno, Nevada, Diode LED Light Guide Panels provide even, diffused light in a thin form factor due to a unique etched diffusion pattern. We customize the LED panel based on your specifications and dimensions. Light Guide Panels are equally useful for backlighting graphics, retail product displays, wall art, bars, stretch fabric ceilings, or translucent architectural elements such as walls.

GRAZE X™ FIXTURE

THE PROMISE OF LINEAR OPTICS

Contemporary architectural design often features linear light, increasingly as the primary light source. Beam control and shaping of light is important to allow for nuanced lighting design. As linear LED technology advanced and adoption increased, expectations also increased for the optical performance of linear light.

The discreet form factor of low-voltage linear light has always been one of its major appeals.

Now, optical performance is the new focus.

CELTECH™ Optic

Beams are internally collected & projected

Cut Off Angle
Beam Angle
Field Angle
Spill Light
Our new patented CelTECH™ technology is a fixture design that creates a clean, precise beam by collimating light immediately after it leaves the light engine, which also increases overall efficiency of the fixture and requires less materials. This results in a beam with an exceptional aesthetic, delivered from a physically compact, modular fixture that can be manufactured domestically at a reasonable cost.

FEATURES & BENEFITS
- Crisp optical performance with 10° beam spread
- Built to length, daisy-chain capable for long runs
- Pair with any Diode LED driver

GRAZE X fixture with rotating aiming bracket

OMNIDRIVE® X Dimmable Drivers

Versatile driver for most high-performance dimming applications. Reduce complexity with universal input voltage and multiple dimming protocols in a single driver.

FEATURES & BENEFITS

- ELV, Triac, and 0-10V dimming in a single driver
- 110-277VAC universal input
- No minimum load
- Minimum dimming level of 1-5%, depending on dimmer
- UL listed and Title 24 compliant
- 5-year warranty

Magnetic Dimmable Drivers

All-purpose dimmable driver for everyday tape light projects.

Diode LED has always made the most competitive tape light in the market. Now, we are manufacturing magnetic LED drivers that are just as competitive. Magnetic drivers are still the default, all-purpose dimmable driver for everyday tape light projects. There is no need to go to two different manufacturers to buy components for one light system.

FEATURES & BENEFITS
- Compatible with many dimmers, on/off switches
- 5-year warranty
- Recommended with Diode LED tape light

MikroDIM™ Electronic Dimmable Driver

A compact, dimmable power supply with no minimum load. State-of-the-art design is patented with built-in short circuit protection and industry-leading dimming performance.

FEATURES & BENEFITS

- No minimum load
- Compact design
- ELV Dimming

QUICK SPECS

Environment	Indoor
Input Voltage	120VAC
Output Voltage	12VDC & 24VDC models
Connection Type	Hard-wired
Dimming	ELV Dimming (See compatibility on specification sheet)
Certification	UL Component Recognized UL Listed w/ J-Box

COMPATIBILITY NOTE

This driver is NOT COMPATIBLE with Pulse Width Modulation (PWM) dimmers such as our REIGN® Wall Mount LED Dimmer Switches or In-line LED Dimmer Switches. Visit www.DiodeLED.com for a full compatibility guide.

DI-JBOX-LPMKD	Lo-Pro Junction Box for MikroDIM (Junction box only)	4.25 x 4.34 x 1.48

SWITCHEX® Driver + Dimmer Switch

The patented SWITCHEX combines an LED dimmer switch and LED power supply into a single integrated unit. The SWITCHEX Dimmer + Driver accepts 120 VAC and converts it to low-voltage DC, all within a standard electrical box. With power options up to 100W, it is a true revolutionary step forward for power and control of LED applications.

Fits in standard electrical boxes.

The driver is inside

PATENTED
FEATURES & BENEFITS
- Simplifies your LED installation
- Eliminates compatibility issues between drivers and switches
- Superior LED dimming performance (100% – 5%)
- Preset dimmer with on/off switch
